## ZEBRA MC55/65/67

## HEALTHCARE CASE WITH KEYPAD COVER

Mercy Medical Center called upon the expertise of UltimaCase in order to design a custom case solution for the Zebra MC55X Mobile Computer Series that would satisfy the requirements of the device and the SafeBaby® Solution software.

The MC55/65/67 HealthCare Case was developed to ergonomically and efficiently house the device while being made of medical grade materials which are easy to clean for the most sterile of environments.

HOLSTERS | ROUTEPADS | OP CASES

## FEATURES

The MC55/65/67 HealthCare Case is made of antimicrobial materials which inhibits the growth of pathogenic microorganisms such as bacteria, fungi, yeast, and algae. The design of the case allows easy access to the display and keyboard. It includes a clear window over the keypad. The case also features an adjustable hand strap with a rectangular ring for comfort. D-rings are included for use with an optional shoulder strap. This case will work for devices with and without an antenna and includes easy charge functionality.

- MEDICAL GRADE
- ANTIMICROBIAL MATERIALS
- EASY CHARGE
- D-RINGS
- MADE IN THE USA

## BENEFITS

The MC55/65/67 HealthCare Case is an effective tool to help protect companies' investments in technology, while enhancing the users' productivity and work related experiences with the system in a healthcare environment.

The case is designed to be hygienic with easy to disinfect materials. SoftTouch Cases feature a clear window over the keypad with an opening over the screen for tactile access. This option offers the most versatility for the greatest range of work environments including dampness and dust.

Having a hand strap can be crucial to carrying and grasping your mobile computer, they help prevent accidental drops. EasyCharge Op Cases also have accessible charging ports so there is no need to remove the device from the case. Best for devices that need daily charging.

Optimized for users on the go, the case comes equipped with D-rings for optional shoulder straps. Universal shoulder straps can be purchased through UltimaCase.

## THE COMPANY

Zebra healthcare technology solutions connect medical providers to patient records, caregivers to colleagues and patients to practitioners for better care and better outcomes. They offer a full suite of technologies designed for healthcare – including wristband and label printers, scanners, mobile computers and software that provide visibility and create efficiencies throughout the care environment. Zebra is a leader in patient identity, mobile healthcare and real-time locating and tracking.

One of their current product offerings is the MC55X Mobile Computer Series which comes installed with SafeBaby® Solution software. SafeBaby® Solution is a barcode-tracking system that can be customized as a NICU validation tool, milk bank inventory, or a comprehensive nutrition, feed, and record management powerhouse for hospitals and donor banks. SafeBaby® Solution tracks all aspects of the feeding cycle- from milk bank or mother, to bottle, to baby. Their system also validates that the right milk is being fed to the right child at the right time.
